"Karry's Sky and Grandmother's Flower" by Kyung Kim and Karry Chung

" Painting has been a part of my life and it brought me joy and fulfillment. Recently while I was painting with my 9 years old granddaughter Karry, I was impressed by how she express the wind and clouds.

Her paintings gave me the idea of a joint exhibition.

I hope this exhibition will encourage her to pursue her talent in painting so she too will enjoy the lifetime of happiness it brings. "
